

UNIVERSITY OF  
BIRMINGHAM

School of Physics and Astronomy  
and Astronomical Society present

National Science and Engineering Week Outreach Day

# Other Worlds

For as long as mankind has looked at the night sky we have been fascinated by the planets. These celestial wanderers have helped us understand our place in the Solar System, but it was not until the end of the 20th century, and the discovery of planets around other stars, that we began to appreciate how strange our Solar System is.

This is a very exciting time for science which we, the astronomers from the University of Birmingham, hope to demonstrate at our upcoming event, Other Worlds!

Interactive activities and workshops including:

Talks by experts Dr. Ian Stevens and Dr. Samuel George regarding discoveries so far, prospects for the future and the search for extra-terrestrial life!

Solar astronomy

Making air rockets

and many more for all ages!

Free admission and open to everyone!

Saturday 10th March 2012, 10am - 4pm

Physics West building, School of Physics and Astronomy,  
University of Birmingham, B15 2TT, United Kingdom
